MEMORY WOOD

CARE INSTRUCTIONS

1. Using your microfiber cloth, wipe clean any loose dirt
2. With a small amount of unscented dish soap or soap and water, dip your cloth into the solution and wring out any excess water
3. Using the damp cloth, wipe all wood surfaces clean. Do not put them directly in or under water
4. Dry off with a clean towel and let air dry

For long term care, once dry, you can apply Beeswax, lip-balm (unscented and no colour), butcher block oil or wood oil with a light wiping with a clean cloth

MEMORY WOOD

ADJUSTMENT

1. No heat is required to adjust the temple/end piece
2. Note that they can be adjusted up to a 45° angle or the angle of your thumb.
3. If you bend further than your thumb, the wood will buckle and break
