2024 SUNGLASSES COLLECTION

ONS 2024

Introducing 23 RX-able models with 64 colours for Summer 2024.

HYDROFREAK™ lenses offer exceptional high-quality optics with 5 distinct features

ZEROFORM™ frame material performance material is impact resistant, lightweight and flexible

PSYCHOTECH™ contact zones rubber offers a sweat resistant dry grip

Discover the latest O'Neill styling trends, vibrant colours, and captivating prints showcased in the 2024 sun collection. Embrace the essence of O'Neill's summer apparel, combining fashion and safety for a cool and protected look. The sunglasses in this collection provide exceptional 99%+ UVA & UVB protection and offer polarized lens options, making O'Neill the ideal choice when you're off to the beach.

NEW HYDROFREAK™ LENSES

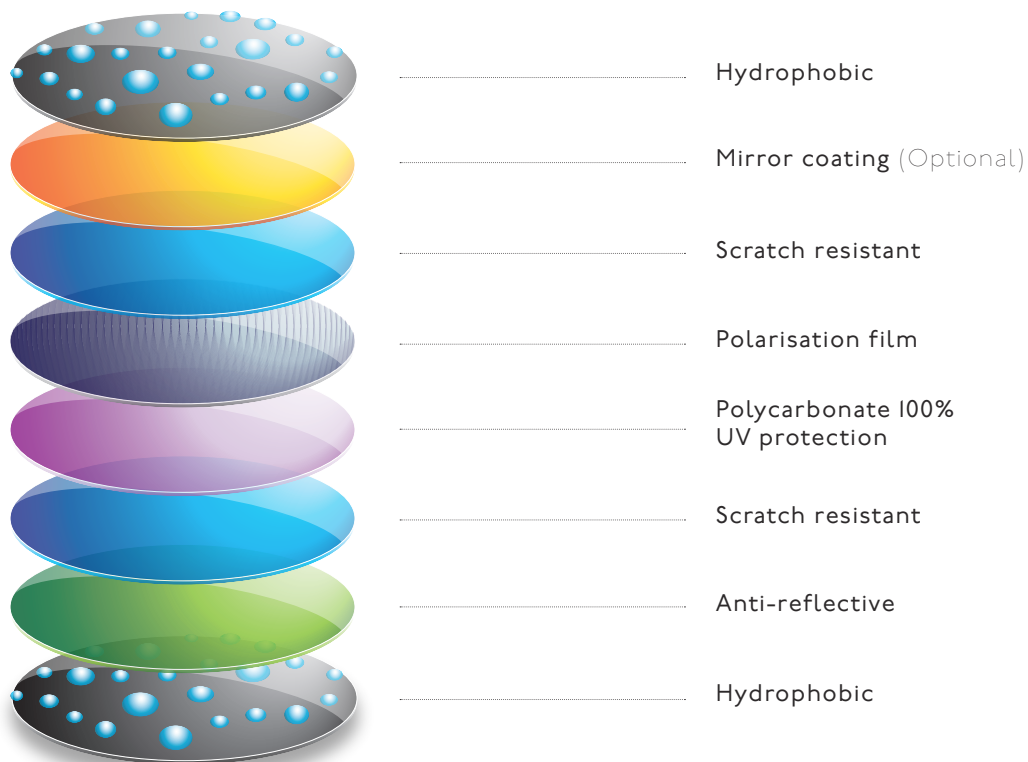

Salt water-resistant polarised lenses

- ♦ HYDROPHOBIC COATING
- ♦ POLARISED FILTERS
- ♦ LIGHTWEIGHT POLYCARBONATE
- ♦ IMPACT-RESISTANT
- ♦ SCRATCH-RESISTANT
- ♦ ENHANCED UV PROTECTION (UVA / UVB 400)
- ♦ ANTI-REFLECTIVE TO REDUCE GLARE

O'Neill introduces HYDROFREAK™ Lenses, with high quality polarising filters sealed and protected from water damage by adding repellent hydrophobic coat and tough scratch-resistant, backside anti-reflective coating and impact-resistant polycarbonate.

HYDROFREAK™ lenses also bring supreme visual clarity - halo elimination, increased contrast and truer colours.

All O'Neill frames are fitted with lenses to offer enhanced UV400 UVA and UVB protection from sun damage.

PSYCHOTECH™ contact zones

Sweat-resistant dry grip

- ♦ NO-SLIP TOUCHPOINTS
- ♦ MULTI-POINT IMPACT SHOCK ABSORPTION
- ♦ O'NEILL COLOUR BRIGHTS

Wherever O'Neill sunglasses frames make contact with your skin, find soft touch PSYCHOTECH™ rubber precision-moulded to cushion impact and retain a dry grip - even in damp conditions. PSYCHOTECH™ rubber in O'Neill colours means it's always summer on the inside.

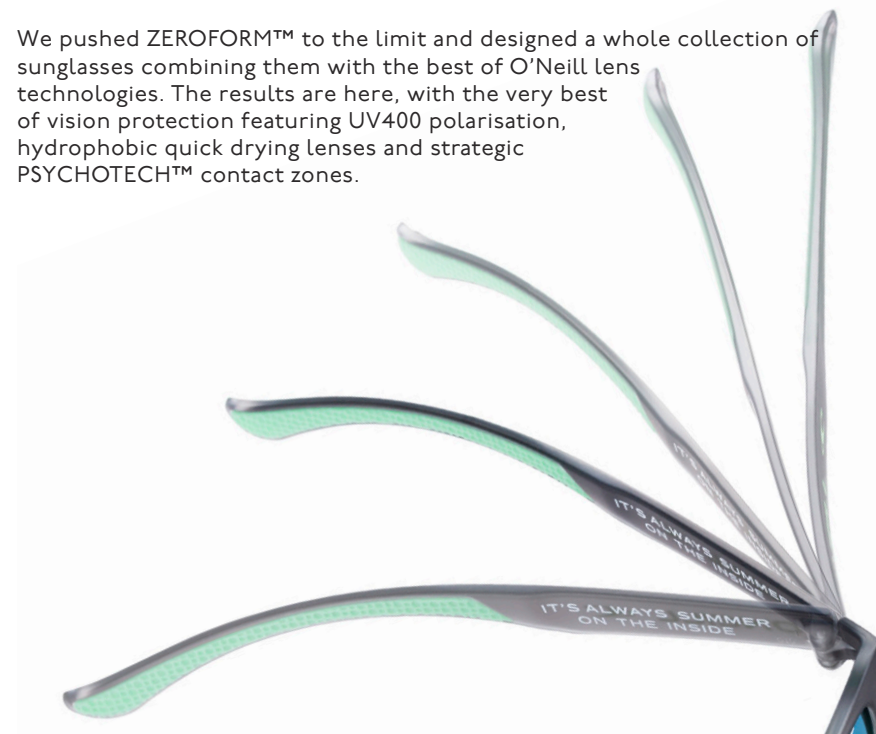

ZEROFORM™ frame material

Precision-moulded ergonomics for active people

- ♦ LIGHTWEIGHT FLEX POLYMER
- ♦ DURABLE
- ♦ PRECISION-MOULDED CONTOUR FIT
- ♦ O'NEILL COLOUR AND FINISH OPTIONS

Active people seek out comfort, flex and durability. The answer to all of these requirements lies in ZEROFORM™ - a synthetic polymer, elastic enough to give flex and secure fit, strong enough to resist impact, and lightweight for all day wear.

We pushed ZEROFORM™ to the limit and designed a whole collection of sunglasses combining them with the best of O'Neill lens technologies. The results are here, with the very best of vision protection featuring UV400 polarisation, hydrophobic quick drying lenses and strategic PSYCHOTECH™ contact zones.
